

## Kentucky Proud plate recognizes farmers, benefits agriculture education

KDA plans to produce this proposed specialty license plate during 2006.

It promotes the "Kentucky Proud" program of recognition and special marketing efforts for home-grown and home-produced foods and farm products. KDA is on track to collect 900 applications before mid-March

2006, when the plate will be produced or the fees returned. Proceeds benefit the non-profit corporation Kentucky Agriculture and Environment

in the Classroom, Inc., which conducts statewide educational activities promoting agriculture and environmental awareness. Send your application with the initial \$25 fee before **March 2006** to the address below to show that you are Kentucky Proud of our Commonwealth's farmers.

Draft design. Final details may vary.
